

Basic Android Operation

How to install and login

1) Search for "MT4" or "Meta Trader4" in the Play Store, or scan the QR code below.

2. Tap "Install" to install MetaTrader 4.

Once the installation is complete, launch the app.

A demo account will be created automatically.

Tap the "MT4" logo in the upper left corner to open the menu screen, and tap "Account Management".

(5) Tap the "+" button on the upper right.

(6) Tap "Login to Existing Account".

⑦ Search for the server of yewtrading.

Demo account is

yewtrading -Demo

For a live account

yewtrading -Live

Select the server you wish to use.

Enter your login ID and password to log in.

Menu screen

Tap in the red frame to open the menu screen.

(1) Quotes

You can check the real-time rate of each currency pair. You can also add other currencies to the list. You can also switch between simple view mode and advanced view mode.

Simple View Mode: Displays the currency pair, bid/offer price, and offer price.

Advanced View Mode: "Last Update Time," "Spread," "Sell Price," "Buy Price," "Low Price," and "High Price" are displayed.

It is also possible to open the new order screen and the chart screen from the quote screen.

2) Charts

You can switch between bar charts, candlesticks, and line charts. You can display and set various indicators, change the leg type, and place orders.

3) Trade

You can check the details of your balance, effective margin, and surplus margin. If you hold a position, you can close it from the trade screen.

4) History

You can check your trading history.

(5) Mailbox

The mailbox is not used by yewtrading.

(6) News

yewtrading does not provide news.

⑦ Economic calendar

You will be redirected to the installation screen of the economic indicator calendar application "Tradays -FX Economic Indicator Calendar and News" provided by MetaQuotes. You can install it if necessary. (This is not supported by us.)

Message (8)

You can use this service by registering to MQL5.community. (This is outside the scope of our support.)

(9) Settings

You can change the settings of each screen.

(10) Log history

Displays the history of logins and operations. (This function is only available in English.)

(11) Version Information

You can check the latest version information.

Tap a currency to open the menu.

(1) New Order

Go to the order screen for the selected currency. You can place a new order from here.

(2) Open Chart

Go to the chart screen of the selected currency.

(3) Currency Pair Properties

You can view the properties of the selected currency pair.

(4) Simple View Mode / Advanced View Mode

You can switch the rate display mode.

Simple View Mode: Displays the currency pair, bid/offer price, and offer price.

Advanced View Mode: "Last Update Time", "Spread", "Sell Price", "Buy Price", "Low Price", and "High Price" are displayed.

How to add a currency to be displayed

Tap the pencil mark in the upper right corner.

Tap the "+" mark to bring up a folder called "Forex".

Tap the currency pair you wish to add to the quote screen.

The currency pair will be added with a single tap.

How to delete a currency pair to be displayed

Tap the pencil mark in the upper right corner of the quote screen, and then tap

Tap the trash can symbol.

Check the checkbox of the currency pair you wish to hide, and tap the trash can symbol again to hide it.

Charts

You can switch between "Bar Chart", "Candlestick", and "Line Chart". You can also display and set various indicators, change the leg type, and place orders.

The default setting is candlestick. If you want to switch to bar chart or line chart, you can do so from "Settings".

Main Chart

Indicator Window 1

3) Indicator Window 2
